WELCOME MESSAGE FROM THE PRESIDENT OF EUROPEAN ROWING

We are thrilled to be heading to Gdańsk for the 2024 European Rowing Coastal and Beach Sprint Championships, on the shores of the Baltic Sea and warmly invite you to join us for this exciting and competitive event.

The historic city of Gdańsk, one of the oldest in Poland, has a rich maritime history and picturesque surroundings, which will provide the perfect backdrop for this prestigious event. As our Rowers prepare to navigate the coastal waters and sprint along the sandy shores, they will not only be competing for glory but also forging connections that transcend borders.

Now a new Olympic Rowing discipline, Beach Sprints will bring the action close to spectators alongside the festival atmosphere on the beach, while the Endurance format will test the rowers' resilience, strength and ability to read the waves and currents. All the ingredients for a true adventure, on and off the water.

On behalf of the Board of European Rowing I would like to extend my gratitude to the Polish Rowing Federation, the Organising Committee and volunteers, whose tireless work will ensure a successful and compelling event that we hope will attract new audiences. Together, we can foster the growth of Rowing and create lasting memories for athletes and spectators alike. Best wishes to all participants in your preparations—may your oars cut through the water with precision, and see you in Gdańsk!

Here's to a wonderful event!

HOST CITY

GDAŃSK - POLAND

Gdańsk is a city with a unique history, which has had a great impact on its contemporary landscape. For centuries it has been a melting pot where diverse cultures, peoples and traditions have formed a unique community.

Gdańsk is the Polish maritime capital with the population nearing half a million. It is a large centre of economic life, science, culture, and a popular tourist destination. Lying on the Bay of Gdańsk and the southern coast of the Baltic Sea the city is a thousand years old. With its Hanseatic tradition, it has for ages played a major role in the commercial relationships between Northern and Western Europe on the one hand, and the countries of Central and Eastern Europe on the other hand. Today, Gdańsk is the capital of the Pomeranian province and an important administration centre.

In its "golden age" the city enjoyed the specific status of a municipal republic. It was also a melting pot of cultures and ethnical groups. The air of tolerance and the wealth built on trade made culture, science, and art flourish. Today, works by outstanding Gdańsk masters can be admired in museums, churches, and galleries. These collections, as well as the historic sites of enchanting beauty witness a thousand years of the city's continued existence. The break-through events of the most recent turbulent period are documented in the multi-medial exhibition: "Roads to Freedom" arranged in the historic BHP HALL of the Gdańsk Shipyard. The exposition recalls the local struggle for freedom and justice, and the birth of the first Independent Trade Union, "Solidarity". These developments triggered the avalanche that toppled communism in Europe.
